Summary

Experienced Front-End Developer skilled in JavaScript, TypeScript, React, HTML, and CSS, with a strong focus on user experience and performance optimization. Passionate about exploring diverse areas within Information Technology to expand knowledge. Quick thinker in dynamic environments, thriving in agile settings. Adept at collaborating with cross-functional teams to deliver high-quality products.

Skills

- **Languages:** JavaScript, Typescript, Python, HTML, CSS
- **Tools:** Excel, Postman, Dynatrace, Splunk, PowerPoint, JIRA, Quantumetrics
- **Platforms:** VS Code, GitHub, Android Studio
- **Frameworks:** Tailwind CSS, Bootstrap, React-Native
- **Libraries:** React.js, Redux
- **Interpersonal Skills:** Teamwork, Leadership, Fluent Communication, Rapport Building

Experience

Infosys

2022 - Present

Senior Systems Engineer

- Developed and maintained web applications with a focus on performance, responsiveness, and user experience.
- Closely collaborated with UI/UX designers and back-end developers to implement designs into fully functional websites and mobile apps.
- Optimized web applications by reducing loading time by about 15%, ensuring seamless interactivity and an exceptional user experience.
- Performed extensive testing and debugging using unit tests, regression tests, vape tests to ensure code stability and functionality.
- Achieved an SLA fulfillment rate of 70% for tracking and resolving the bugs in Android apps.
- Documented all tasks and processes concisely and clearly, ensuring smooth communication across teams and easier on-boarding for new team members.
- Managed code base using Git for version control and team collaboration, ensuring efficient workflow and code integration.
- Utilized Redux for state management and RTK (Redux Toolkit) for API requests, writing maintainable, scalable code.
- Led a team of five members in conducting manual testing on web components developed by other teams, achieving an 80% success rate in issue resolution, while personally contributing to 70% of the bug fixes, driving high efficiency in the process.
- Wrote reusable CSS code to streamline development processes, increasing resource utilization by 40% and reducing redundant code.
- Mentored new team members, providing project-relevant knowledge and training to help them become productive contributors quickly.

Education

Gujarat Technological University - GSET

2020 - 2022

Master of Engineering (Electronics & Telecommunications)

- **GPA: 8.57**
- **Ranked top 10% of class**
- Specialization in Mobile communication and Network Technologies
- Thesis or Dissertation Title: Determining and Mitigating the Latency in WiFi Mesh Networks.

Deogiri Institute of Engineering and Management Studies

2016 - 2020

Bachelor of Engineering (Electronics & Telecommunications)

- **GPA: 7.25**
- Created a Patient Health monitoring system using LoRA protocol along with a few other projects.
- Organized a PCB designing workshop and Industrial Visits

Certifications

- Microsoft Certified: Azure Administrator Associate
- AWS Certified: Cloud Practitioner
- Google Certified: Cloud Digital Leader
- Microsoft Certified: Security, Compliance, and Identity Fundamentals
